

JOBS NOT BOMBS.

Over half the York unemployed are under 25:—one reason why youth should be concerned that this year the Government is spending £16,000 million on the military—£20/week for every family.

But worse, this spending is going on weapons of mass destruction—nuclear missiles.

This year Cruise missiles are coming to Britain, with Reagan's finger on the launch button. These first-strike weapons make us a first priority target.

The Greenham women have shown we don't want these weapons. Youth CND supports them and says only mass mobilisations have the power to stop the madness of nuclear weapons and force a Government to disarm.

So that's why we're marching on May 21st for JOBS NOT BOMBS. We say turn the £16,000 million into producing jobs, hospitals, schools. Now there's a GENERAL ELECTION, we want our voices heard even more.

Youth from Scarborough, Hull, Harrogate, and Leeds will be joining us. Youth will lead the march, because we have the most to lose, and the best ability to fight back.

COME ALONG, and make this the biggest march York has ever seen!

SUPPORTERS SO FAR INCLUDE:—York Youth CND, York Student CND, York CND, Teachers for Peace, York Trades Council, York Labour Party, York Labour Party Young Socialists, Socialist Workers Party, York University Green Movement, York General & Municipal Worker's Union.

\*\*\*MAY 24—International Women's Day for Disarmament. Activities in over 20 different countries; march and meeting in York. Come to the Jobs not Bombs march for details or ring Helen on 641761.
